(71) Applicant:

Yamagata Gravure Co., Ltd. 99, Wakabayashi-machi 2-chome Yao City

### (57) Scope of the Utility Model Registration Claim(s):

Bag with a head section for packaging commodities where the surface of the head section core 1 is wrapped with a head section film 2; the head section itself is formed by affixing the head section film 2 to the head section core 1 and head section side parts to be fused 5 at the right and left of the head section core 1; a bag section is formed by affixing a film net 4 with the bag upper part to be fused 7 and side edges to be fused 8 at the right and left to a surface film 3 that extends below the head section film 2; and an

IR 1/2" JUNY 211 barg MP with wicketing strip.

opening is provided in the lower part of said bag section.

#### Brief Description of the Figures

Figure 1 is an enlarged front view of the film net to be used in the bag with a head section for packaging commodities of the present invention. Figure 2 is a front view of a bag with a head section for packaging commodities, which is one actual example of the present invention. Figure 3 is a longitudinal section view of the above-mentioned bag.

The symbols in the figures have the following meanings: (1) head section core; (2) head section film; (3) surface film; (4) film net; (5) head section side part to be fused; (6) head section lower part to be fused; (7) bag upper part to be fused; (8) side edge to be fused; (9) opening; and (10) hole for hanging up the bag.

#### 砂実用新菜登録請求の範囲

ヘッダー芯1の表面をヘッダーフィルム2で包み、ヘッダー芯1の左右のヘッダー融着側部5においてヘッダーフィルム2をヘッダー芯1に固定して、ヘッダーフィルム2の下方に延設した表面フィルム3にフィルムネット4を袋体部上辺融着部7および左右の側部融着線8により固定して袋体部を形成せしめ、該袋体部の下部に関口部を有するヘッダー付き商品包装袋。

#### 図面の簡単な説明

第1図は本考案のヘッダー付き商品包装袋に用いるフィルムネットの拡大平面図であり、第2図は本考案の一実施例であるヘッダー付き商品包装袋の平面図であり、第3図はその経断面図である。
